

# INFORMATICS FOR PHARMACY STUDENTS E-RESOURCE

**Version 2 – Now Available!**

<http://afpc-education.info/moodle/>

Based on user feedback, Version 2 (2016) of the e-Resource features many improvements:

- Streamlined navigation and layout
- 12 Chapters accessed from one landing page
- Online registration open to all email addresses (*not restricted to university only*)
- Quizzes and Certificates available for all chapters
- 3 new interactive Virtual Patients (*Minor Ailments*)

Chapter 1: Informatics: Key Concepts

Chapter 2: Digital Patient Records and Systems

Chapter 3: Privacy, Security, and Confidentiality

Chapter 4: Clinical Documentation

Chapter 5: Digital Pharmacy Information Resources

Chapter 6: Evidence Based Medicine and Clinical Guidelines

Chapter 7: Consumer Health Informatics

Chapter 8: e-Health and Telehealth

Chapter 9: e-Prescribing

Chapter 10: Hospital Pharmacy Informatics: CPOE & Discharge Medications

Chapter 11: Automation in Medication Distribution

Chapter 12: Information Management and Technology

## e-Resource Features:

- Competency based, modular and flexible
- Written by Canadian pharmacy experts
- Student and faculty user guides available
- Experienced faculty members across Canada have used Version 1
- Content updates underway for Version 3 (*planned launch 2017*)
- Authors and Reviewers: Please contact [marie.rocchi@utoronto.ca](mailto:marie.rocchi@utoronto.ca)

## What students are saying about the e-Resource:

- *"I liked how there were interactive activities. They truly helped us understand and apply the material better in a simple, user-friendly way."*
- *"The virtual patient activities were excellent as they provided hands-on practice of the concepts learned!"*
- *"I would highly recommend this domain to all pharmacy students, and it serves as a great way to prepare ourselves before we enter into our APPE rotations."*
