

L'Université
de Montréal
et de votre
carrière.

Université de Montréal has more than 10,000 employees and is one of Canada's Top 100 Employers.

UdeM has Canada's 2nd largest student body and ranks among the top five Canadian universities in research, receiving more than half a billion dollars in research funding every year.

Through the achievements of the members of its community, UdeM participates in building today's and tomorrow's world.

Assistant or Associate Professor in Pharmacology

Faculty of Pharmacy

The Faculty of Pharmacy is seeking applications at the Assistant or Associate Professor level in the area of pharmacology applied to chronic inflammation, aging, endocrinology or immunotherapy.

Roles

Teaching: The successful candidate will actively participate to the teaching mission of the Faculty at both the undergraduate and graduate levels in the field of pharmacology. He or she will also contribute to the supervision of undergraduate and graduate students.

Research: The successful candidate will need to develop an independent, competitive and original research program that exploits cutting-edge technology, such as bioinformatics or chemoinformatics, in the field of pharmacology applied to chronic inflammation, aging, endocrinology or immunotherapy. This program should be linked to the other research programs led by professors from the Faculty research axis « Discovery and validation of therapeutic targets ». In order to help begin the research activities, the Faculty will provide laboratory space and start-up funds.

Impact and contribution to the successful functioning of the organization: The successful candidate will participate actively in the development of the discipline through conferences, publications or scientific activities related to his or her field of expertise. He or she will participate to the proper functioning of the institution by contributing to Faculty or University committees.

To succeed in this role, you'll need:

- » To hold a PhD degree in pharmacology, pharmaceutical sciences or any other related discipline
- » To have completed a postdoctoral training or equivalent in pharmacology, pharmaceutical sciences or any other related discipline
 - Expertise in the fields of bioinformatics and chemoinformatics is an asset
 - Pharmacy training is also an asset
- » To submit your application to the salary support program of the Fonds de recherche du Québec – Santé (FRQ-S) or the Canadian Institutes of Health Research, if you are the successful candidate
- » To have an adequate knowledge of the French written and spoken language **or** a strong commitment to mastering the proficiency level required for teaching after arrival, in accordance to [Université de Montréal's Language Policy](#). An institutional learning support program is offered to all professors wishing to learn French or improve their communication skills.

How to submit your application

We invite you to submit your resume, a two-page description of your research program for the next four years, a letter indicating how you envision your integration at the Faculty regarding research and teaching, and three letters of recommendation before **March 1st 2019**. Documents can be send by email or mail at:

Lucie Blais, Ph.D.
Vice-doyenne aux affaires professorales et secrétaire de faculté

Additional information about the faculty position

Reference number	PHA 11-18/1
Application deadline	Until March 1st 2019 inclusively
Salary	Université de Montréal offers competitive salaries and a full range of benefits
Starting date	June 1st 2019 or after, following the availability of the candidate

Université de Montréal is strongly committed to fostering diversity and inclusion. Through its [Equal Access Employment Program](#), UdeM invites women, Aboriginal people, visible and ethnical minorities, as well as persons with disabilities to send their application. We will –confidentially – adapt our recruitment mechanisms to the specific needs of people with disabilities who request it. We also welcome applications from candidates of all orientations and sexual identities. All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, priority will be given to Canadians and permanent residents.

Université de Montréal's application process allows all members of the Professor's Assembly to review the application files submitted. If you wish to keep your application confidential until the shortlist is established, please mention it in your application.
