2 new modules**

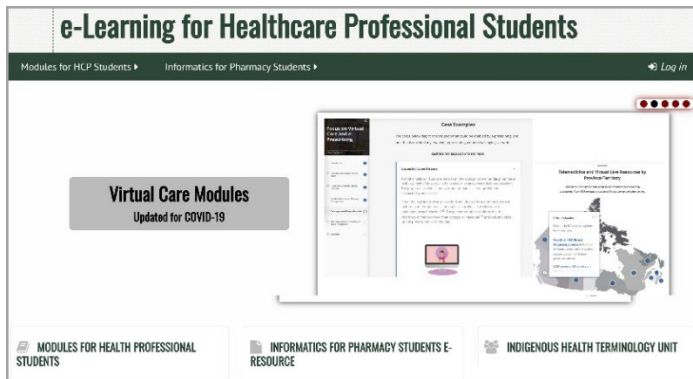

Informatics for Pharmacy
Students e-Resource

Informatics for Pharmacy Students e-Resource

WHAT'S NEW IN VERSION 4?

- ✓ **9 pharmacy informatics modules updated and redesigned in Articulate Rise (# 1, 2, 3, 4, 9, 10, 11, 13, 15)**
- ✓ **2 new modules (From Telemedicine to Virtual Care and Virtual Care & e-Prescribing)**
- ✓ **10 of the updated modules are also for students in other health professions ***
- ✓ **Many updates include the impact of COVID-19**

Check out sections from 3 updated modules:

Clinical Documentation

section 5: Formats, Style & Templates

Safe & Effective e-Prescribing

section 7: Clinical Communication

e-Medication Reconciliation

section 2: eMedRec in Acute Care

What students are saying about the e-Resource:

"I liked how there were interactive activities. They truly helped us understand and apply the material in a simple, user-friendly way."

"I like how the examples/scenarios given in the e-prescribing module were highly relevant to what often happens in the pharmacy."

"I would highly recommend ... it serves as a great way to prepare ourselves before we enter into our APPE rotations."
